

Making Positive Moves 1 year on

It has been 1 year since the Making Positive Moves website was launched

Over this year we have been getting feedback from people who use it and we want to share this with you

Some of the things people liked about the website were:

- The colours and pictures used to make it easier to understand
- The use of videos, pictures, workbooks, and information sheets to explain different things

- The amount of information that is included on each area

- How easy the website is to use for everyone

This feedback has also helped us make changes to the website to make it better for people using it

Some of the areas we have changed from the feedback we got are:

- To include more easy read information about the laws so it is easier to understand
- Making sure the information is up-to-date and included new information about PBS and links to Books Beyond Words
- Making sure all the pictures and size of the writing is clear
- Putting links on the Help page so that people can contact us easily

Some of the feedback was about things that we need to spend a bit more time on

One of these was to develop more videos to show a mixture of people sharing their experiences

Another area was about people who have very complex needs finding it difficult to access many things in society

This is something we are very aware of and know not everyone will be able to use the website

We will continue to work hard to try and change this where we can

Overall, the feedback we got was very positive and has helped us make the website even better

We are grateful for the people who took time to give feedback

It is important for us to hear your thoughts on the website so that we can make it as helpful as possible

If you have any comments about the website, we would love to hear them
